Subject: National Negotiations Update

Sisters and Brothers,

This past Sunday I sent you all an email pertaining to a rumor that the largest Rail Labor bargaining coalition, known as the Coordinated Bargaining Group - CBG, had reached a tentative agreement with the National Freight Railroads. The CBG represents approximately 60% of the National Freight Railroads organized workforce. I have been investigating this matter all week, and as of late yesterday afternoon I have been advised that no tentative agreement has been reached. I was also advised that once agreement was reached I would be notified.

Accordingly, as soon as I hear anything new pertaining to this, I will notify you immediately.

Fraternally and in Solidarity,

Bill Bohné, Jr.
Director - IBEW Railroad Department
202-728-6016
